# Private Client

**Our Private Client team provides a professional service in a sympathetic manner.**

## Wills

The impact of death on family and friends is not something that any of us want to think about but taking professional advice about making a Will gives you peace of mind that your assets will pass to whom you wish. It also gives you a tax planning opportunity. Without a Will your children or unmarried partner could end up with nothing and if you do not take professional advice your Will may not be valid.

## Probate

A deceased person's assets must be collected in and distributed. The Executor must prove they have authority to do this by obtaining a Grant of Probate. They must also account to the beneficiaries.

We can offer you as much or as little help as you need during this difficult time.

## Lasting Power of Attorney

An LPA allows you to choose someone now to look after your affairs should you not be able to do so for yourself in the future through illness or incapacity. There are different types of LPA requiring careful consideration.
